Summary

Experienced Software Engineer with over four years of hands-on expertise, dedicated to architecting efficient digital solutions. Proficient in the dynamic interplay of Python Django, Angular, and Ionic frameworks, I bring a blend of creativity and pragmatism to every project. Adept in DevOps practices, including Docker and Kubernetes, I orchestrate the harmonious convergence of code and infrastructure. Committed to delivering quality results through collaborative problem-solving and continuous learning, using Agile Methodologies

Experience

Back End Developer (part-time)

Ejjir

Jul 2021 - Apr 2023 (1 year 10 months)

Managed multi-tenant property web service using Django, focusing on efficiency.

Collaborated with tech leads and the team for on-time sprint deliveries.

Implemented business-oriented features, employing Test-Driven Development for robust code.

Crafted efficient Restful APIs, maintained responsive databases, and periodically improved system architecture.

Frontend Developer

GLT

Mar 2022 - Apr 2023 (1 year 2 months)

Planned and executed software projects aligned with business needs.

Collaborated with UI/UX team to enhance user experiences.

Documented and maintained software functionality.

Crafted efficient, testable code; debugged and upgraded systems.

Enhanced tools for user interaction, following Agile SDLC.

Translated UX and business needs into elegant code solutions.

Developed features for mobile and desktop platforms using HTML, CSS, JavaScript.

Executed website development from mockups to functional web presence.

Prioritized SEO best practices for site design.

Applied Angular for optimizations and line-code repairs.

Discussed requirements with clients, producing actionable development plans.

Back End Developer

Disruptive Labs Inc

May 2022 - Jan 2023 (9 months)

Evaluated and developed new tools and technologies to help achieve company-level goals.

contentiously enhance system architecture

Collaborated with other teams on security, automation and internal tools.

Improved performance and reliability of databases, web services and other integrations.

Maintaining Company Back-end infrastructures from web servers
Developing And Maintaining Next-Gen Payment Solution• Implemented a container based development environment which
reduced developer on-boarding setup time by 90%

Full Stack Engineer
Horizon Omega
Jan 2019 - Jan 2020 (1 year 1 month)
Build and deployed and maintained mobile apps using Angular Framework
Manipulated and implemented object-oriented programming models.
Collaborated with team to analyze system solutions based on client
requirements.
Collaborated with senior software staff to produce new software solutions.
Produced advanced and clean code for diverse applications.

Frontend Developer
Altkamul Altiqani Computers
Jan 2020 - Mar 2022 (2 years 3 months)
Pioneered new tools and tech to meet company goals.
Enhanced system architecture and security.
Collaborated on automation and internal tools.
Optimized databases, web services, integrations.
Maintained backend infrastructure and payments solutions.
Streamlined onboarding, reducing setup time by 90%.
Enhanced user tools for interaction and design.
Validated creative proposals with stakeholders.
Employed Agile SDLC for swift client iterations.
Translated UX into elegant code solutions.
Documented and maintained software functionality.
Crafted efficient, testable code; debugged and upgraded systems.
Completed 6 diverse projects aligning with business needs.

Education

Al-Neelain University
Bachelor of Science, Computer Software Engineering
2014 - 2022
Attained a comprehensive education in Software Engineering from Neelain University. Equipped
with a solid foundation in programming, problem-solving, and software development methodologies.
Graduated with a deep understanding of the principles that underpin modern technology, setting the
stage for a successful career in the software industry.

Skills

agile • Back-End Web Development • Full-Stack Development • RESTful architecture • Responsive
Web Design • DevOps • Test-Driven Development • Problem Solving • Amazon Web Services (AWS)
• QA Engineering
